

## **Vision of SEN at Goodmayes Primary School**

At Goodmayes Primary, our aim is to empower every pupil by recognising and harnessing their strengths and talents to enable them to thrive and achieve their full potential.

Staff have high aspirations for all pupils and ensure that the provision aids resilience, excites curiosity, develops independence to become lifelong learners in preparation for their future.

Our school community is proud of its diversity; we place great emphasis on our unique and varied community of learners. Everyone, regardless of faith, ability, gender, ethnicity, background or circumstance is valued and nurtured and is expected to become an independent learner. All pupils are entitled to equal access to the curriculum, in a safe and secure learning environment.

We strive to provide a broad and balanced curriculum that is inclusive, personalised and engaging for all. When a pupil is identified with a special educational need, the curriculum is further adapted to reduce barriers to learning.
